

WARSAW CLASH.

Thirty-One Killed and Fifteen Hurt This Afternoon.

FURTHER TROUBLE EXPECTED

Crowd Marching With Red Flags Stopped by Troops—Swords Used Savagely.

(Bulletin.)
Warsaw, May 1.—This afternoon a clash occurred between the troops and the people, which shattered the hopes that the Easter holidays would pass off without bloodshed.

A crowd of several thousand persons who were marching through the streets carrying red flags, was stopped by the troops. The cavalry made a charge on the people, the horsemen using their swords savagely. The infantry also took a hand in suppressing the demonstration and the soldiers fired several volleys.

Many people fell before the fire and the people scattered for the time being. The exact number of casualties reported is 31 killed and 15 wounded, none of them seriously. The injured were removed to hospitals. Later great crowds of people assembled near the scene and a demonstration is now in progress. Further clashes between the soldiers and the populace are expected.

Disposition of Jap Forces.

Gunshu, Manchuria, May 1.—Information obtained from prisoners and captured mail shows that the disposition of the Japanese armies is as follows: General Nodzu, the regiments at Tie Pass and Kayuan; General Oku, from Tie Pass westward; General Nogai, from Fakoman to Changtutu; Kawamura, northeast of Mukden. The weakest forces of the Japanese are in the region about Mukden, while the principal concentration is in the region of Tie Pass. The flanks are guarded by mixed bands of Japanese and Chinese bandits.

Rights of Mohammedans.

St. Petersburg, May 1.—Interior Minister Boulougan informed a delegation of Mussulmans that while the question has not been definitely decided, he presumed the Mohammedans of the Caucasus would be allowed representation and equal rights with Russians in the assembly to be created under the imperial rescript. The Boulougan commission having the assembly question under consideration is still engrossed with the question of the manner in which the representatives shall be apportioned and elected.

Jap Loan Subscribed.

London, May 1.—The Daily Telegraph's Tokyo correspondent says: "It is stated here that the whole of the Russian second and third Pacific squadrons will join forces on the morning of May 5. The fifth native loan of \$50,000,000 has been over-subscribed five times, and the financial position now permits of a resumption of the construction of the Central railway through Japan, which was stopped at the beginning of the war."

Saw the Russian Fleet.

Hongkong, May 1.—The steamer Stettin sighted from 30 to 40 vessels of the Russian second Pacific squadron in Honkoku bay, Anam, about 50 miles north of Kamranh bay, Thursday afternoon. The cruisers, which had their decks stacked with coal, signalled the Stettin to stop and questioned her. The fleet was preparing for sea.

ARGUMENTS MADE IN ACTRESS' TRIAL

MISS PATTERSON STILL HOPEFUL THAT JURORS WILL SET HER FREE.

Case Will be Submitted Soon—Attorney Levy Makes Strong Speech. Big Crowd Present.

New York, May 1.—Within 48 hours Nan Patterson should know whether the jury now trying her for the murder of Caesar Young holds her innocent or guilty. The case will either go to the jury late today or early tomorrow.

Abraham Levy, chief counsel for Nan, began the summing up for the defense when court opened this morning. The summing up was a general attack on the prosecution's case. Each link of the state's case was picked up and its flaws laid open for inspection. On every point Levy sought to cast a reasonable doubt. There was nothing to show that the Morgan Smiths purchased the revolver, he declared.

Assistant District Attorney Rand will sum up for the state this afternoon and Recorder Goff will then charge the jury.

Nan Patterson has great faith in her acquittal. She can see nothing but freedom for her within a few days at the most. She appeared almost radiantly happy this morning as she walked into court and spoke to her aged father.

Dramatic indeed was the setting for the final scene in this fight for the life of Nan Patterson. One might have easily imagined it was guillotine day in the French revolution. It is fine sport to feed on the sensations of a wretched woman, who awaits either her freedom or her death. Rare stakes these, and one calculated to make the play for the fawns fevered and hot.

No wonder that hundreds that came and laid siege to the doors of Recorder Goff's court long before the prisoner was led from her cell in the Tombs to the prisoner's pen. Scores were turned away, but more came and fought to get in. Sweetly gownned girls and matrons there were, and they were given the preference of seats by the court officers. David Belasco, playwright, sat in a front seat and listened intently. The roll call of the May term of jurors had to be disposed of before the defense began its task. When the droning call had been concluded and the prisoner had taken her seat beside her counsel the white haired recorder nodded to Mr. Levy and the final plea for the life Nan Patterson was begun.

"Nan Patterson to the bar," called the clerk. There was a craning of many necks as the doors swung open in the rear of the room and the black gownned defendant, her face pallid and anxious, in spite of her expressed confidence in her acquittal, walked through the crowded aisles. She seemed extremely nervous as she sat beside her counsel and her eyes glanced incessantly from the juryman to the counsel.

"The defendant rests," said Levy. "We have no more witnesses to call," said Prosecutor Rand.

Recorder Goff nodded and Levy began his address to the jury. He spoke of the responsibilities now devolving upon the jurors in their task of weighing the evidence.

"We are told that this is a case of circumstantial evidence. You have for your guidance a set of laws which have come down from the ages to guide you in your deliberations. Do you realize the responsibility now resting upon you? If you sit in judgment in a property case and you err that error may be repaired. But when you sit in judgment in a case of life or death and err, there is no repairment."

REVOLUTIONARY

Conference Summoned by Fr. Gapon is Ended.

DELEGATES FROM ALL RUSSIA

Resolutions Demanding Various Reforms Throughout the Russian Empire Are Adopted.

Paris, May 1.—The revolutionary conference which was summoned for the purpose of discussing the internal situation in Russia by Father Gapon who was the leader of the workmen in St. Petersburg on "Red Sunday," has just come to an end. Resolutions were adopted outlining the demands for the revolutionists for changes in Russia, and plans made to carry on the agitation for a revolution in a systematic way. The conference was attended by delegates representing the Russian socialist party, the Polish socialist party, the white Russian socialist party of Southwestern Russia, proper, the socialist union of workmen of Livonia, the Finnish active resistance party, the Federalist revolutionists of Georgia, in Russia trans-Caucasus and the Armenian revolutionary federation.

The establishment of a republic in Russia proper, with freedom of speech and of the press, the release of political and religious prisoners, an autonomous government for Finland, the convocation of a national Polish diet, and the ultimate establishment of an autonomous democratic federation for the Caucasus, these are some of the reforms demanded in the resolutions, which are as follows:

"Being convinced that the present time demands the combined and simultaneous movement of all the revolutionary forces against the autocracy we resolve the following as the minimum of our political demands:

"First, the transformation of the Russian empire into a democratic republic with universal suffrage and equality for all.

"Second, the convocation of a representative assembly to be composed of delegates from all parts of Russia, except Finland, and Poland, the assembly to be summoned after the people have secured liberty of speech, of the press and the right to organization, and after the liberation of all political and religious prisoners.

"Third, the establishment of an autonomous constitutional government in Finland.

"Fourth, the convocation of national Polish diet at Warsaw.

"Fifth, the convocation of a constituent assembly for the Caucasus for the purpose of organizing an autonomous Caucasus federation."

For the purpose of systematizing the work of carrying on the agitation in favor of the reforms demanded the conference decided to establish a central bureau. The direction of the revolutionary propaganda will be centered in this bureau.

EASTER GIFT

Is Religious Freedom For Russian People Granted By the Czar.

St. Petersburg, May 1.—Real religious freedom, conferred upon his subjects by Emperor Nicholas as an Easter gift, is an historic event of the highest significance.

While the emperor's approval of the action of the committee of ministers distinctly holds to orthodoxy as the state religion and creates the usual commission to work out many details in connection with the offspring of mixed marriages during minority, legitimization of marriages, registration of deaths and births, it also rescinds a number of acts aimed specifically at various religions and establishes the principle of absolute freedom of worship and the right of every Russian who becomes of age to change his confession of faith, in which the assurance of religious freedom lies.

The emperor's act will affect about forty millions belonging to alien faiths, such as the Jews, Catholics and Lutherans of Poland and the Baltic provinces, the Protestants of Finland and the followers of Islam and Buddha in the Urals, the Crimea, the Caucasus, Turkestan and central Asia.

NEW POSTMASTER

Joseph M. Ickes Succeeded By George D. Heisey.

DEPUTY NOT YET ANNOUNCED

Branch Office Is to be Started in East Newark—Mr. Ickes in Real Estate Business.

Newark now has a new Postmaster. Mr. George D. Heisey, who has been associated with his father, Capt. A. H. Heisey in the manufacture of table glassware, took charge of the office on Monday morning, succeeding Mr. Jos. M. Ickes who will engage in the real estate and insurance business having his office with Col. M. M. Gillett in the Fleek-Zartman block, on West Main street.

Last December Mr. Ickes recommended a postal and money order station for East Newark, which was allowed in March. Mr. Ickes has extended the courtesy of appointing a man for the new office to his successor, but at this writing it is not known who the appointee will be.

It is said there are over twenty applicants for the position of deputy postmaster, but Mr. Heisey has as yet announced no selection.

During Mr. Ickes' incumbency in the office the service in Newark has been greatly improved. It was largely due to his efforts that the new postoffice was secured. Four new city carriers have been added to the force and the rural service has been greatly improved. Mr. Ickes retires with the knowledge that the Newark postoffice is now one of the best paying offices of any city the size of Newark in the state.

SEDALIA, IND., ALMOST IS DESTROYED BY FIRE

Frankfort, Ind., May 1.—The town of Sedalia was almost wiped out this morning by fire. The town has no fire protection and the citizens and farmers fought the flames as best they could with buckets.

CHICAGO STRIKE.

Caravan of Wagons Attacked Monday Noon.

FEDERAL AID TO BE ASKED

President Dold Calls Meeting of Joint Strike Board—One More Death.

Chicago, May 1.—May day saw the strike situation milder than had been expected. Both employers and employees, however, were determined following the Sunday conference at which efforts to bring about compromises or an end of the strike were futile. The day also saw a large addition to the ranks of the striking teamsters. The employers say "No Concessions." The labor leaders say "Fight to the finish."

Strike breakers are being imported by car loads. They are mostly negroes and it is said they will be placed under the leadership of "Strike Breaker" Farley, who has a national reputation as a strike opponent. All the available strength of the police department has been thrown into the struggle.

Nearly 1,000 police are on strike duty; also hundreds of private detectives. Mayor Dunn has ordered the arrest of all persons carrying concealed weapons and has warned spectators at the riots to beware of the pistols.

Another fatality was added to the strike this morning when Police Sergeant Richard Cummings, who was run down by a union teamster, died at the hospital. Clarence Darrow has been retained to defend the labor leaders indicted by the county grand jury.

This noon a caravan of wagons was attacked near City Hall. Missiles, eggs and shells filled with acid were hurled at the non-union men. Nine negro drivers and guards drew their black jacks and revolvers and were arrested. Employed as private individuals Lieutenant Hawkins and fifty members of the Eighth Illinois National Guard company, colored, were placed on guard duty at the docks of the International Salt company, but in uniform. Police took away their weapons.

There was a lull in the federal building this morning. The express companies are about ready to ask for protection of the United States court injunction, but they did not come forward with the application. Attorney Levi Mayer, who is looking after the legal aspect of the strike for the employers, says he has the names of a number who have violated the federal injunction and may bring them to the attention of the court.

Rain this morning lessened the crowds of spectators in the strike district. "Strike Breaker" Farley will be assisted by Frank Curry, the well known anti-strike leader. Claiming that police protection for wagons growing insufficient, Victor Sincere and Edwin Reed, managers of the employers' teaming company this morning said that unless something better was done they would be compelled to ask for further federal assistance. President Dold called a meeting for tonight of the joint strike board, which aims to form a permanent offensive and defensive alliance to govern the strike.

SEVERAL SHOTS FIRED.

Chicago, May 1.—While six coal wagons were driving past headquarters of the pressmen's union, near the Customs House, this noon, several shots were fired at the non-union colored drivers. A fusillade of missiles followed. The teamsters fired at their

assailants, who immediately withdrew. Policemen arrested the teamsters.

PRESIDENT WILL NOT INTERFERE

Glenwood Springs, Colo., May 1.—Secretary Loeb today left for a visit to the President. The latter's camp will be changed to East Divide again. It is authoritatively stated today that no attention will be paid to the strike in Chicago during the President's visit. Should the strikers present a petition asking the President to arbitrate, it will be received, but only when he can be without interference.

WORKMEN APPEAL

Want Roosevelt's Assistance in Teamsters' Strike—Federation of Labor in Action.

Chicago, May 1.—Anticipating that the peace conference in Mayor Dunne's office would be futile, the Chicago Federation of Labor, without waiting for announcement of the result of the negotiations, appealed to President Roosevelt and Governor Deen for assistance in the teamsters' strike. Fearing that troops may be sent to Chicago to preserve order during the strike, the labor organization has asked both the president and the governor to investigate the situation in Chicago before taking any such action. President Roosevelt will visit Chicago May 8, but it is the intention of the labor body to get in communication with him immediately.

A determined effort on the part of Mayor Dunne and his peace committee, composed of five citizens, one of whom was a woman, to bring about an amicable settlement of the strike, was an absolute failure, and all peace negotiations for the present at least, have been declared off.

The indications are that the strike is bound to spread to other firms. Both sides seem determined in the stand they have taken. All members of the Employers' association will insist on all of their union teamsters making deliveries to the concerns already involved in the strike. A refusal on the part of any driver to comply with this request, the employers declare, will be met with instant dismissal. The teamsters' union has declared that in every instance where a union teamster is discharged for this reason, every union driver employed by the firm making the dismissal will be ordered on strike. With both sides in this frame of mind there seems to be nothing which can prevent a rapid spread of the strike.

A mob of 500 men and boys, headed by a number of striking teamsters, raided the main stables of the Employers' Teaming company and stamped the animals. This was a violation of the federal injunction issued by Judge Kohlsaat. The names of the union men involved, it is said, have been secured. The federal jury has returned indictments against the strikers arrested Friday.

MAE WOOD'S SUIT

Secretary Loeb Fails to See How He is Involved in the Action for Damages.

Omaha, Neb., May 1.—A petition was filed in the district court here in a suit for \$35,000 damages wherein ex-Postmaster General Robert J. Wynne, now consul general to London; William Loeb, secretary to President Roosevelt, and J. Martin Miller, consul to Aix-La-Chapelle in Rhinisch Germany, are named as defendants, and Mae C. Wood is named as plaintiff. Miss Wood was formerly a clerk in the postoffice department, Washington. She was formerly a practicing attorney in Omaha. She acts as her own attorney in this case. In her petition Miss Wood alleges that the three defendants conspired to obtain possession of, and actually did obtain possession of, letters and manuscripts belonging to her which she was preparing to use in a book to be entitled "The Love Affairs of a Boss." The letters, she says, were written to her by Senator Platt. She alleges that the letters and manuscripts were taken from her by unfair means.

Loeb's Comment.

Glenwood Springs, Colo., May 1.—"Why, I never saw the woman in my life, nor do I want to see her," said William Loeb Jr. secretary to the president, when he was shown a dispatch concerning the suit filed in Omaha by Miss Mae Wood asking \$35,000 jointly of Mr. Loeb, former Postmaster General Wynne and J. Martin Miller, a Newark (N. J.) newspaper man who was recently appointed to a position in the consular service. When the newspapers arrived, giving a detailed account of the filing of the damage suit, Mr. Loeb read the story carefully and remarked: "It is just as I thought. I will have to get a bill of particulars to tell how I am connected with the case."

THIRTEEN DEAD

Miners in Wilburton, Okla., Are Entombed.

SHAFT SHATTERED BY SHOCK

It May be Days Before Bodies of Victims Are Recovered—All Killed Instantly.

Wilburton, Okla., May 1.—By an explosion in the Missouri, Kansas and Texas Coal company's mine No. 19, four miles west of here, 13 miners were entombed and probably killed.

It is believed that a bad shot set off some dynamite that had been stored conveniently for work in pushing entries. The rescuers began work within a few minutes after the explosion. An attempt at fanning air in with canvas was abandoned when the condition of the shaft became apparent. Four shifts have since worked taking out the debris and timbers. The condition of the timbers indicates that it will be necessary to recase the mine, in which event the bodies may not be reached before Wednesday or Thursday. It is the universal opinion of experienced miners that all the men are dead. Foreman Steiner was killed at the bottom of the shaft. He had returned to the surface a few minutes before the explosion to look after Bud Cole, a negro belonging to the preceding shift, whose leg had been cut off by a trip. He had, according to the engineer, barely reached the bottom of the shaft when the explosion occurred. The heels of his shoes were torn off and thrown to the top of the shaft. "The mine is a newly opened one, operated by Deglan & McConnell. The victims: B. Steiner, foreman; Mike Wynn, Ralph Fisher, Ben Smith, William Atkinson, O. Golden, Joe Morino, all white; Gus Phillips, Knox Lynch, J. D. Byrd, Mike Duvall, R. F. Cales, William Edwards, all colored.

BOWEN IS COMING

Minister is Granted a Week to Arrange His Affairs at Caracas Before Sailing.

Washington, May 1.—Secretary Taft heard from United States Minister Herbert W. Bowen at Caracas in response to the secretary's dispatch directing him to come to the United States in connection with the charges affecting Assistant Secretary Loomis, which were reported to the state department in a personal letter by Mr. Bowen. The minister acknowledges his willingness to come to the United States immediately, but preferred that he be permitted to delay his departure from Caracas until next Monday, so that he may have time to settle some matters before leaving. This arrangement will be satisfactory to Secretary Taft, and permission was given the minister to delay his departure as requested.

CHADWICK CASE MAY BE HEARD NEXT MONTH

Cincinnati, O., May 1.—Error proceedings in the case of Mrs. Cassie Chadwick may be heard early in June by the United States Circuit court of Appeals. There is on file a motion by United States District Attorney Sullivan asking the court to advance the hearing. He argues that unless the case is heard before fall term justice will suffer.

PROMPT ACTION

SHOULD BE TAKEN BY NEWARK'S
COUNCIL AND OFFICERS

To Employ a Competent Engineer to
Prepare Plans and Specifications
For Water Works.

The Advocate is pleased to learn
that prompt and definite action prom-
ised to be taken in the necessary steps
for securing city ownership of water
works. Mr. John P. Lamb, President
of the Board of Public Service, states
that the Board is industriously en-
gaged in the matter of procuring a
competent hydraulic engineer for the
purpose of preparing new plans and
specifications for a system that will
meet the city's needs.

The Advocate urged that this be
done when the decision of the Circuit
court in the water works injunction
case was rendered, and that further
delay in the project of city ownership
be obviated as far as possible.

Mr. Lamb states that the Board of
Public Service appreciates thoroughly
that the first practical step to be
taken is the employment of a compe-
tent engineer, but he informs the
Advocate that the Board cannot pro-
ceed to enter into any contract for the
employment of an engineer without
authority from the City Council.

Accordingly a meeting of the Coun-
cil is to be held next Monday evening
for the purpose of passing a resolution
or an ordinance authorizing the Board
of Public Service to employ or contract
with such an engineer. In consequence
of the importance of this matter, we
hope there will be a full attendance
of the members of the Council at its next
meeting in order to properly consider
this matter and promptly take the nec-
essary action.

Mr. Lamb gives assurance that the
greatest care will be taken by the
Board of Public Service to secure the
services of an engineer of the highest
capacity with a reputation for the
strictest integrity.

Prompt, practical action on the part
of the Council and city officials, so as
to obviate further delay as much as
possible in providing for an adequate
water system, is what the people of
our fast growing city are demanding.

BIG DEFICIT IS CERTAIN

GOVERNMENT'S EXPENDITURES
WILL BE LARGELY IN EXCESS
OF REVENUE.

By the End of Fiscal Year the Shortage
Will Exceed the Sum of
\$24,000,000.

Washington, May 1.—The expendi-
tures of the government exceeded its
current income by more than \$9,000,000
in April, and the treasury deficit for
the first 10 months of the fiscal year
is upward of \$34,000,000.

Secretary Shaw has consulted with
the treasury department with the result
that he is assured the deficit for the
fiscal year ending June 30 next, will not
exceed \$24,000,000, and that it will prob-
ably be below that figure.

Other officers of the department are
not so confident. The months of May
and June nearly always show a bal-
ance on the right side of the govern-
ment's big account books, but it is re-
garded as a slim chance that the re-
ceipts for the last two months of the
fiscal period will exceed the expendi-
tures by as much as \$10,000,000. Mr.
Shaw's estimate of this year's deficit,
made about 20 months ago, was \$18,-
000,000.

Many persons who are familiar with
the finances of the government believe
this year's shortage will not be less
than \$26,000,000 and predict that it
may reach \$30,000,000.

Saturday was the last business day
for April and according to the treasury
statement made the receipts of the
government in April amounted to \$39,778,-
182 and the expenditures to \$49,615,000.
The deficit for the month was there-
fore \$9,236,818.

The problem of the deficit is a ser-
ious one in the opinion of the treasury
officials. The cash balance in the
treasury has declined to \$133,191,777,
including the amounts held by the Na-
tional bank depositories, and Secretary
Shaw has found it necessary to with-
draw from the banks \$20,000,000. The
cash balance actually on hand in the
treasury is said by some to have fallen
below the point of absolute safety.

The condition of the government's
finances will certainly cut a large figure
in the proposed revision of the tariff
law, for the majority of the govern-
ment is the income from duties. The
customs receipts during the first ten
months of the current fiscal year are
less than those of the same months in
the last fiscal year, although there has
been an enormous increase in importa-
tions of foreign products. The importa-
tions, however, have failed to produce
a larger revenue because the increase
in importations has been largely in
those classes of goods which are in-
cluded in the free list of the Dingley
law.

The customs receipts in the first 10
months of this fiscal year have amount-
ed to \$219,836,426 as against \$220,370,-
965 in the corresponding period of last
year.

The increase of about \$35,000,000 in
current expenditures of the govern-
ment during the first 10 months of the
current fiscal year was due chiefly to
the large disbursements for the naval
establishment, and in a lesser degree
to disbursements for civil and miscel-
laneous objects.

KILLED FROGS

In Court With Poison Taken
From Victim—Man is
Found Guilty

Greenville, Tex., May 1.—For the
first time in the history of this county
physical demonstrations of adminis-
tering poison and causing death were
made in court here, the tests being
made during the trial of Will Manning,
charged with poisoning his wife near
Celeste. Following a dramatic effort
of Judge H. D. Wood to have
Will Manning swallow a dozen of the
strychnine crystals taken by chem-
ical process from the stomach of his
dead wife, it was proposed to make a
test of the crystals before the court
and jury. Three frogs were brought
into the courtroom. A small quan-
tity of strychnine obtained from a
drug store was injected into one of
the frogs and produced death in a few
minutes. Into the other was injected
a small portion of poison from the
crystals. Both died in a few minutes.
The demonstration was made in view
of the jury. Later the jury returned
a verdict, assessing the death penalty.

FRENCH PEOPLE

Will Make Removal of John Paul
Jones' Remains Occasion of a
Big Demonstration.

Paris, May 1.—The French govern-
ment has decided to make the removal
of the remains of John Paul Jones,
the naval hero of the American Rev-
olution, the occasion of a great demon-
stration in honor of his memory and of
showing France's regard for the great
sister republic. The arrival of the
American squadron which will convey
the body to the United States will be
celebrated with a great military and
naval demonstration. The coffin con-
taining the remains of the admiral
will be borne in state through the
streets of Paris escorted by French
soldiers and sailors, as well as govern-
ment representatives. Plans are al-
ready being considered for making the
occasion a memorable one.

During the last three months over
40 officers in the English army have
been granted leave of absence to study
Russian.

Granville, May 1.—The first public
exercises of the coming centennial of
Granville, took place this afternoon at

interest. The event today was in com-

Why Suffer From Rheumatism?

Why suffer from rheumatism when
one application of Chamberlain's Pain
Balm will relieve the pain? The quick
relief this liniment affords makes
rest and sleep possible, and that alone
is worth many times its cost. Many
who have used it hoping only for a
short relief from suffering have been
surprised to find that after
while the relief became permanent.
Mrs. V. H. Leggett of Yum Yum, Ten-
nessee, U. S. A., writes: "I am a great
sufferer from rheumatism, all over
from head to foot, and Chamberlain's
Pain Balm is the only thing that will
relieve the pain." For sale by all druggists.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind. dis-
courages and lessens ambition; beauty, vigor
and cheerfulness soon disappear when the kid-
neys are out of order or diseased.

Kidney trouble has become so prevalent
that it is not uncommon for a child to be born
afflicted with weak kid-
neys. If the child urines
too often, if the urine
stains the flesh or if, when the child
reaches an age when it should be able to
control the passage, it is yet afflicted with
bed-wetting, depend upon it, the cause of
the difficulty is kidney trouble, and the first
step should be towards the treatment of
these important organs. This unpleasant
condition of the kidneys and bladder and not a habit as
most people suppose.

Women as well as men are made mis-
erable with kidney and bladder trouble,
and both need the same great remedy.
The mild and the immediate effect of
Swamp-Root is soon realized. It is sold
by druggists, in fifty-
cent and one dollar
sizes. You may have a
sample bottle by mail
free, also pamphlet tell-
ing all about it, including many of the
thousands of testimonial letters received
from sufferers cured. In writing Dr. Kilmer

mention this paper.

Don't make any mistake, but remem-
ber the name, Swamp-Root, Dr. K.

A Conductor's Poke

(Original.)
We are considered heartless, said
the conductor, because we put people
off trains who tell us all sorts of stories
as to why they can't pay their fare.

The truth is we are not permitted to
judge in such matters, our orders being
to collect all fares. The only case in
which I violated my instructions was
where I considered myself to blame in
depriving a passenger of his ticket.

I was in charge of the Chicago Lim-
ited from New York at the time and
was going through the train punching
tickets when I came to a handsomely
dressed young man with a sput case
beside him plastered all over with the
names of foreign hotels. It was mid-
summer, and he was sleeping with the
window beside him open, a derby hat
pulled down over his eyes. We con-
ductors have to deal with so many
people who pretend they don't hear us
when we call for tickets that instead
of asking a second time we poke them.

The young man referred to seemed to
be sleeping so soundly that I poked
him vigorously in the side. He start-
ed up as if he had been shot, knock-
ing his hat out of the window. Plac-
ing his hands to his side, he groaned.

"I beg pardon," I said. "I hope I
didn't hurt you."

"Hurt me?" he said, almost breathless
with agony. "You're nearly killed me.
I've an abscess on my liver." And he
groaned again.

"I'm sorry about your hat," I re-
marked, hoping to draw his mind from
his sufferings.

"Hat? What hat?"

"Didn't you notice that it went out
of the window?"

"Did it? I don't care anything about
a hat. I can buy one as soon as I have
the time. But I'm afraid you've done
me up. Doctor told me to let him op-
erate on my liver, promising if I didn't
that the first thing I run my side
against might break the abscess and
kill me."

The young man was so frightened
about himself that I began to feel un-
easy for fear I had done him serious
injury. I stood leaning on the back of
the seat looking down on him anxiously
till his sufferings seemed to moder-
ate, then asked again for his ticket.

"Oh, my ticket! If you'd have asked
me for it you might have had it long
ago. It's this confounded poking you
conductors practice that I object to.
I'm going to report this matter to the
proper official of the road and find out
if something can't be done to stop the
nuisance."

"I'll repair the damage," I replied,
"by getting you another hat at the first
stop."

"Hat! What's a hat to me? It cost
me a guinea in London only last week,
but do you suppose I'm thinking about
that? I'm worrying for my life."

Meanwhile he had taken out his pock-
etbook, opened it, pulled out a ticket,
which proved to be a check of some
sort, put it back, took out something
else, paused for a paroxysm of pain,
clapping his hand on his liver; shut up
his pocketbook, put it away and began
to search elsewhere for his ticket. Sud-
denly he stopped hunting and exclaim-
ed:

"By thunder, I am in a fix!"

"What's the matter now?"

"Ticket and baggage checks all in the
lining of my hat."

I sighed. Here was more blame for
me, consequent upon my poke.

"Now, see here," pursued the young
man angrily and talking loud enough to
be heard all over the car, "this is an
outrage. You not only ran your fist
into me, but knock my hat out of the
window with my string of tickets all
the way to Chicago, and I've got noth-
ing to show for my trunks."

More unpleasantness for me. I could
pass him to the end of my run, but
what would he do after that? However,
I braced up and said to him:

"Never mind your ticket."

I was about to move on when he
stopped me.

"I do mind my ticket or the loss of
it, and I want you to fix me to Chi-
cago."

"Chicago?"

"Certainly, Chicago. You've depriv-
ed me of my tickets there, and I don't
propose to let you off without making
my loss good. I'm a lawyer, I am, and
I'll begin suit, not against you; I'm not
so stupid as that, but against the road.
It'll pay for the tickets, besides dam-
ages and costs."

The question arose in my mind, Shall
I get the company into a lawsuit, and
doubtless lose my position, or put the
man through? I decided on the latter
course. We conductors have ways of
doing things with our fellow con-
ductors, and I gave the passenger a line
to those who followed me which they
would understand. This seemed to
satisfy him. He stopped his loud
threats and went to sleep again. When
I turned the train over to my suc-
cessor I bade the young man goodbye, ex-
pressing a hope that he might suffer no
inconvenience as to his liver. He re-
plied that I had made all the repara-
tion he asked, and he would not blame
me even if my poke proved fatal.

Several days after the incident a let-
ter came for me containing a check. I
looked at the signature of the letter,
and it was signed "The Man Who Poked
Me." The check was for the price of a
ticket from New York to Chicago. The
writer confessed that he had been on a
lark abroad and returned to New York
stranded. He wanted to know if he
hadn't played it on me pretty well,
concluding with the information that
poking passengers for tickets was an
American custom not practiced by
"guards" abroad. His liver was doing
as well as could be expected.

I have never since poked a passenger.

THE LIMIT.

I am rather even-tempered.
Do not give away to rage;
I can listen to the troubles
Of my friends with air most sage;
I can look upon disaster
With a brow serene and high,
Calmly smile in face of trouble,
Pay my debts without a sigh.

Do my duty as I see it;
Keep my family neat and clean,
Fall to take offense at trifles,
Smile when feeling pretty mean,
Cheer them up whenever my neighbors
Say they're feeling downright blue,
But when asked to mind their baby
Then I'm angry through and through.

Just imagine Baby Bunting,
Ten months old and better foot
Mother wants to go a-calling;
Says she, "Dear, I'd like if you
Kindly would look after baby
While I'm gone; his papa's out."
Then she brings the youngster to me,
Saying, "He will sleep, no doubt."

Sleep! The infant falls to howling
Ere she passes through the door,
Spite of all my talking, scowling,
And it swells into a roar.
Oh, the glory of that yelling!
Ten steam whistles couldn't dim it.
When it comes to raising ruction,
Baby Bunting is the limit.

One Want Not Filled.

JURISDICTION OF PROBATE COURTS

IN DIVORCES MAY BE KNOCKED OUT BY LEGISLATURE AT THE COMING SESSION.

Seven Counties Including Licking Have Concurrent Jurisdiction With Common Pleas Courts.

Seven counties in the state, including Licking, where the Probate courts have been granted concurrent jurisdiction with the Common Pleas courts over divorce cases will be deprived of their double jurisdiction in such matters if the recommendations of the state bar committee on legal reform are adopted at the meeting ordered to be held in Columbus next Thursday by Judge E. B. Dillon, the chairman, and are framed into a law by the incoming legislature to which they will be directed.

Communications have been received by Judge Dillon from attorneys and other interested persons in the respective counties, and there seems to be a general favoring of the idea to knock out the Probate court jurisdiction in divorce matters in the interest of uniformity and public economy. It is stated in the letters received that it has come to be a very rare thing to have a divorce petition filed and heard in the Common Pleas courts in the seven particular counties as the statutes provide shall be the case in the 81 other counties in the state.

The agitation has been started to bring about the amendment of the law through the influence of the state bar committee because in the present condition of the statutes the temptation is liable to be too strong in the Probate courts in contrast to the salary plan now in force in the Common Pleas courts.

The counties specified by the statutes as possessing this concurrent jurisdiction are Delaware, Licking, Richland, Perry, Henry, Madison and Coshocton.

FORMER GRANVILLE MAN IS PRESIDENT

The service commemorating the seventh anniversary of the East Newark United Brethren church was attended Sunday by a large number of people. The morning service was to have been conducted by Dr. T. At both Sunday services a special collection was taken, which was to apply on the debt caused by repairs made upon the church last November. The church is now in good condition from every standpoint and the members are well satisfied with the conditions.

The total valuation of the deeds filed during April has not been completed. On Saturday alone the valuation of deeds recorded amounted to nearly \$25,000.

Zanesville-Columbus Accommodation.

Regarding the discontinuance of the Columbus-Zanesville accommodation train, a Zanesville paper has the following to say:

For many years the B. & O. railway company has maintained a morning week day train leaving Zanesville for Columbus at 6:15 and returning from the capital city at 6:10 in the evening. It has come to be known as "Taylor Spence's train," and the story goes hundreds of people, especially the aged and those who claim the personal attention of the conductor will not ride with anybody else if they can possibly arrange for the Zanesville-Columbus accommodation. Mr. Spence, we say it fairly, has come to be the most popular railroad man running out of this city and to miss him from his accustomed place is a personal loss.

It is said that the officials of the B. & O. company are considering the matter of taking off this train. Of course there is a financial reason back of it—the venture is not yielding sufficient return. Against this proposition comes the one of a public convenience and conflicting interests at once arise. To discontinue this service will cause serious inconvenience to our people who have been accustomed to go to Columbus or intermediate points early in the morning and return in the evening arriving in this city at 8:15 p.m.

This is not only the first record of its being seen in Ohio but Curator Frank W. ELECTRIC BULB

Takes Place of Hen and Hatches Out Eggs in Fine Style Says Mr. Vance.

Muskogee, I. T., May 1—H. M. Vance, a chicken fancier, was expecting great results from a setting of eggs that he promised well until two days before time for hatching, when the hen broke all the eggs except three and refused to sit on those that were left. Mr. Vance took the three remaining eggs before they became cold, made a nest in the house, placed an electric light bulb in the nest and turned on the current. In twenty hours he had hatched all three eggs and he has three as fine chickens as any old hen ever clucked to. The warmth from the electric light was just strong enough.

A crowd of about 1000 people gathered at the city prison Monday morning, most of them to see the circus. The crowd was so large that the officers had to keep the people from entering the prison. CAR HIT CURVE.

J. P. Bond Standing Upon Step Thrown to Ground.

HE LATER DIED FROM INJURY

Victim of Accident Was About to Step From Granville Car at Young's Home.

In an accident west of Newark Saturday night, J. P. Bond, whose home is near Belle Valley, north of Caldwell, Noble county, was so badly injured that he died at the Newark Sanitarium on East Main street at 7:30 Sunday morning.

Mr. Bond was a passenger on a Granville car and was ready to alight near O. H. Young's farm house. He was standing on the step of the car which was slowing down at the crossing. The car rounded a sharp curve just before reaching the stopping place and Bond lost his balance and fell from the car.

He struck heavily on his head and shoulders and was unconscious when the conductor of the car reached his side. He was placed on an incoming car and brought to Newark being met at the station by Bower & Criss Brothers' ambulance, which removed him to the Newark Sanitarium.

Coroner C. F. Legge was called as it was thought the man was dead. He later called Dr. Smith to assist in the case but then skill was of no avail and the man died at 7:30 Sunday morning.

Relatives of the dead man were notified at Belle Valley and J. P. Thomas, a nephew, arrived Monday morning to look after the body.

Mr. Bond was about 45 years old and resided with W. J. Fulton, a farmer residing west of Newark. He was unmarried and is survived by his mother, Mrs. Maria Bond and six brothers and three sisters. The body was taken on Monday to Belle Valley where the funeral services will be held Tuesday morning.

NARROW ESCAPE HAS LITTLE BOY

COMMISSIONER LAMBERT'S SON THROWN BY ONE TRAIN AGAINST ANOTHER.

Strange to Say the Boy—Escaped Uninjured and He is Around Today Just as Usual.

Arthur Lambert, the 12 year old son of County Commissioner J. M. Lambert, had a narrow escape from a horrible death on Saturday evening about dusk. The lad was standing on one of the tracks at the North street crossing waiting until a north bound B & O freight train passed when a road engine with a number of cars backed down on him. He was struck by one of the cars and hurled against the freight train which in turn knocked him back against the cars being drawn by the road engine. A brakeman who was on top of one of the cars jumped down to where the boy lay between the two trains and told him to hang fast to the ties which he did until the two trains passed by. Strange to say the boy escaped unharmed and is around today as usual.

DENISON DARKIES

ANNUAL SHOW AT GRANVILLE A BIG SUCCESS.

Henry Davis' Ten Year Old Son Maurice, Hurt by Colt—Granville Personal Items.

Granville, O., May 1.—The entertainment given by the Denison Dandy Darkies at the Opera House on Saturday night, was a grand success in every particular. The Dandy Darky Minstrels have come to be recognized as one of the most important events of entertainment and interest of the college. A large house greeted the rise of the curtain at 8 o'clock, and for more than two hours all were entertained and amused. Quite a number of Newark people were in attendance.

Mr. Frank Whallon acted as interlocutor and under his direction every detail of the program went forward without a hitch. The first scene was well arranged. The costumes were elegant and all those taking part acted with freedom and ease. The end men, Messrs. Conley, Colby, Chrissold and Beattie, all played their parts exceedingly well. The music furnished by the orchestra was exceptionally fine, and the first part of the program may be said to be the best part of the entire program, consisting as it did of songs, local hits and jokes, etc., all of which were quite harmless in their nature and all were original.

The second and third parts of the program were not up to the expectations of the audience, being inferior to those of former years. A great deal of the fun was carried to excess and the farce, after the first, grew tiresome and uninteresting. Financially, however, the entertainment was a success and the Athletic Association will be given the funds.

The Denison Dandy Darkies are to be congratulated on the success of the entertainment, and all those who in any way contributed to the success are to be complimented.

It had been given out early in the evening that it was the intention of

a number of hoodlums of the village to break up the entertainment. Several of these gutter snipes showed up, but when they found the village marshal and a number of other officers on the ground, they quietly took a sneak, and the show was not interfered with.

Saturday evening Maurice, the ten year old son of Mr. and Mrs. Henry Davis, residing near Homer, met with a bad accident. He was leading a colt to water when the animal wheeled and kicked him in the face, inflicting a deep gash just below the left eye. It was necessary to take several stitches in order to close the wound.

Messrs. Roy Dodd and Ernest Carhart spent Sunday with friends in the village.

Misses Barker and Peckham of Shepards College, returned today from the teachers biennial convention which they have been attending in Michigan.

The Baptist Missionary convention will be held here Tuesday, Wednesday, Thursday and Friday of this week.

Miss Fitch of Galesburg, Ill., was a guest of friends in town Friday and Saturday.

The Kappa Phi gave a tea in the Society rooms on Friday afternoon in honor of Miss Fitch of Galesburg, Ill.

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It kills itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
